

St. Vincent's Hospital Manhattan

I was in the right place at the right time. When I had my stroke, Dr. Albert Favate of St. Vincent's saved my life. I don't think I would have made it if I'd been at any other hospital.

St. Vincent's. It's my hospital.

– Francine Townsend, surgical technician, homeless shelter volunteer, mother, grandmother

For five straight years, St. Vincent's Comprehensive Stroke Center has received the highest possible rating – Five Stars – by HealthGrades,[®] the nation's leading independent healthcare ratings organization.
